Letter of Appreciation

To Whom It May Concern

It is my pleasure to write this letter in appreciation of Mr. Kaartik Issar, whose remarkable contributions have had a lasting impact on SD Public School through his innovation, mentorship, and commitment to advancing data-driven education.

Kaartik is the creator of MajorMatch.ai, an AI-powered platform that helps students identify the undergraduate majors best aligned with their personality profiles and interests. Since its introduction at our school, MajorMatch.ai has transformed how we guide students in making academic choices. We have seen a significant decline in subject and stream change requests among Grade 11 students since the platform's implementation, a clear testament to its accuracy and effectiveness.

In addition to this project, Kaartik also conducted engaging sessions on Data Science and Coding under our STEM Ignite program for promoting STEM based Innovation ideas among school girls, an initiative under DRIIV (Delhi Research Implementation & Innovation) Effective Education Vertical (DEEP-C), the Office of Principal Scientific Advisor, Government of India. Kaartik used relatable data and case studies to make the session relevant for girl students. His sessions were interactive, inspiring, and deeply impactful encouraging many girl students to explore data driven STEM fields with newfound confidence and curiosity.

Kaartik's work stands out not only for its technical depth but also for its purpose driven vision. His initiative has meaningfully bridged data science and education based learning experience not only for students but also for teachers, leaving a lasting impression within our school community.

We take immense pride in recognizing Kaartik's outstanding work and commend him for his innovation, leadership, and dedication. I am confident that he will continue to make remarkable contributions in the field of Data Science and beyond.

Sincerely,

Dr. Neelakshi Gupta
Principal
